PRODUCT DESCRIPTION

HBC Meister Fade Out Thinner is a fast drying high quality blending solution that offers a simple and easy fade out process for use with clear coats plus solid colours.

Formulated for easy application which has an excellent over-spray wetting properties.

Ideal for a quick repair on cars, smart repair, commercial vehicles and many other industries.

DIRECTIONS FOR USE

SHAKE CAN FOR AT LEAST TWO MINUTES BEFORE USE

Apply immediately after the application of the clear coat applying small amounts of the thinner to the sides of the clear coat edge overspray to achieve a uniform shade.

Do not apply heavy coats.

Once the desired finish is achieved allow the coating to fully cure. A finishing polish may be applied for the final finish.

Use between 15°C to 25°C in a well ventilated area.

Shake can vigorously for at least two minutes to ensure the product is thoroughly mixed.

Repeat shaking at regular intervals during use.

Spray from a distance of 20cm to 25cm.

After use invert can and spray to clear the valve and sprayhead, this prevents the aerosol from clogging up prior to using next time.
